

# Brooks

*Hearing & Speech Clinic*

January 2006

## ***IT'S 2006! NOW is the time to "turn over a new leaf" and start the NEW YEAR with improved hearing!***

Brooks Hearing & Speech Clinic has been serving the public for over a decade with the latest technology available, and we have seen advancements in hearing instruments come and go, but none has made as great an impact as digital/directional technology. We have personally witnessed the effect these devices have made on the lives of many of our patients, and hope we can help you "turn over a new leaf" and enjoy the same advancements this New Year!

### ***FREE SEMINAR AND LUNCHEON!***

You and a family member are cordially invited to a ***FREE Consumer Seminar and Luncheon***. Kelly Wassell, Phonak representative and audiologist, will be presenting on "Hearing Loss and the Advances in Hearing Aid Technology." The presentation will feature the Phonak Savia with digital bionics. Please call to reserve your seat today as space is limited. All attendees will receive a free lunch, free hearing screening and free listening demonstration, as well as a chance to talk with Kelly and Jami. Also, every attendee will be registered to win one of several great door prizes.

**DATE:** Thursday, February 2nd, 2006

**TIME:** 11:00 am – 1:00 pm

**PLACE:** Magel's Grill,  
3805 NE Loop 286, Paris, TX

(Located between Walgreens and Pine Mill Rd. on NE Loop 286 just past Hwy 82)

**Please RSVP by January 27th**

**CALL 903-737-8800 TODAY**

**RESERVE YOUR SEAT  
AS SPACE IS LIMITED!**

### ***Hear Well in the New Year!***

The New Year is here. You will have many events and celebrations with your family and friends. These times are of utmost importance. Having your hearing aids working correctly is one way you can help improve communication with your family and friends. At Brooks Hearing & Speech Clinic, we encourage you to come in every three months for a FREE clean and check. If you have not been in to see us in over three months, PLEASE give us a call at (903) 737-8800 or 438-1600 and schedule a time to come in for your FREE three month clean and check. When you're here, pick up your New Year's gift while supplies last!

### ***Our New Year's Resolution to You!***

At Brooks Hearing & Speech Clinic, we will continue to make evaluating and fitting the finest digital hearing aids a professional and comfortable experience. There is no charge for consultations. We are committed to your success! From experience we know that precision electronics and fittings are only part of what makes a good match between technology and our patients' needs. We dedicate our time to make sure your needs are addressed and, by listening to you, we can help improve your hearing.

*We Appreciate Your Business!*

## How can hearing aids help?

On the basis of the hearing test results, our audiologist can determine whether hearing aids will help. Hearing aids are particularly useful in improving the hearing and speech comprehension of people with sensorineural hearing loss. When choosing a hearing aid, we will consider your hearing ability, work and home activities, physical limitations, medical conditions, and cosmetic preferences. For many people, cost is also an important factor. We will help you decide whether one or two hearing aids will be best for you. Wearing two hearing aids may help balance sounds, improve your understanding of words in noisy situations, and make it easier to locate the source of sounds.

**To determine if you need hearing aids, or if you already have hearing aids but are not wearing them, call (903) 737-8800 or 438-1600 to schedule an appointment.**

## Technology Update

If your hearing aids are more than 5 years year old, or are not meeting your listening needs, it's time to update your amplification system. Please make an appointment with one of the audiologists to discuss current hearing aid technology. The advances are tremendous.

**Call (903) 737-8800 or 438-1600 to schedule an appointment.**
